ABOUT ME

I am a highly skilled frontend developer with a strong focus on React development. With over 2 years of experience in the industry, I have a proven track record of delivering high-quality, responsive, and user-friendly web applications.

I have a strong understanding of modern frontend development technologies such as HTML, CSS, and JavaScript, as well as proficiency in popular libraries and frameworks like React, Redux. I am also experienced in using version control systems like Git and working in agile development environments.

In addition to my technical skills, I am a proactive and detail-oriented team player who is always eager to learn and improve. I have excellent communication skills and am able to work effectively with both technical and non-technical stakeholders.

I am confident that my skills and experience make me a strong fit for any frontend development role, and I am excited to bring my passion for building high-quality web applications to your team.

WORK EXPERIENCE

React Js Developer

Ignite infotech [05/05/2022 – Current]

PROJECTS

Enterprise Meeting Portal

[06/06/2022 – Current]

Its SaaS solution has a web portal and mobile application which helps organizations to simplify the process to get approval for a request(subject) when a chain of hierarchical department decisions is involved. It helps organizations set up virtual video conference meetings, maintain minutes of meetings, perform voting during meetings, live chat during meetings, and many more.
